

## **Kitty Thomas Books Reading List... i.e. Where do I start? (Lists all formats and ASINs/ISBNs)**

Most of my books are standalones, however, I DO have a couple of series of “interlocking standalones” as well as a novella series that ideally needs to be read in order.

Below I've tried to organize my books into groupings and to let you know a little about each one so you can navigate what to read in what order.

**NOTE:** This list is current and up-to-date as of **12-08-22**. I will update the list with each new release. Check my website for the most up-to-date list.

These books can all be found on my website with descriptions/blurbs, or at popular online retailers in ebook and print. I'm not going to waste space writing out the full blurbs, just going to give you a brief idea of what the books have in them.

**IMPORTANT:** NONE of my books contain cheating. Sometimes there are multiple partners but it is not cheating. Nobody is lying or being dishonest. Many of my heroes like to “share/pass around” the heroine. But some of my books are monogamous. I've noted those cases below. ALSO NONE of my books contain cliffhangers. They are all COMPLETE and finished stories.

Most of my books deal with themes of captivity, but they aren't dark in sadistic ways.

**START HERE:**

**NEWEST RELEASE:**

**Valkyrie (Mythology, has some kink and multi partners but not “dark” in the normal sense of my books. Enemies-to-lovers, strong heroine, growly alpha)**

This one is based in Norse mythology and set in the contemporary world. It's the love story of Odin and Freyja. My Berserker Novella occurs in this same larger world but it's not a prequel or the first book. It's just “another thing in this world” so you can read that first or this first. Either way you won't be lost.

#### **Comfort Food:**

My debut bestselling novel and the OG dark romance. Most people who have heard of me know about me through this book. Monogamous. Woman captured by a man who won't speak to her and turns whips into comfort and chicken soup into punishment. You have to read it to get it, but you'll never look at chicken soup the same way again.

## **2. Broken Dolls: (also available in Audio: Narrated by Troy Duran and Meg Sylvan)**

Villain of the series gets his own book here. You'll want to have his babies even if you hated him in Guilty Pleasures. The darkest/scariest of the trainers, but a fan favorite. This one is monogamous (only the main guy is with the heroine). Two broken people. A hurt/comfort story. **(There is a spin-off series of novellas from this book and this couple called Brian and Mina's Holiday Hits. You don't have to have read the entire Pleasure House series, but it is helpful to have read Broken Dolls first.)**

## **3. Surrender**

The “nice guy” at the house gets his story, though he seems darker with the damaged and fragile woman he's paired with. Gabe goes out with a woman but thinks she's too

innocent and he's too dark for her, so he leaves her alone, only to find later she's been sold into prostitution. This one is monogamous. (only the main guy is with the heroine). A hurt/comfort story.

#### **4. Pretty Lies**

A “prequel”. It goes back in time to the beginning of the house and gives you the story of how Anton (one of the owners) and his pet came to be together. Definitely not what you expect. (They are already together at the start of the series in Guilty Pleasures.)

**\* THE DARK ARTS \*** (crosses over with the Pleasure House world) (contemporary dark romance) (More books probably coming in this one but there are NO cliffhangers so read these because I can't promise there will even be a third one. I have an idea for a third one but who knows if it will actually happen.)

### **1. The Con Artist (can be read as a standalone)**

A struggling artist, steals millions of dollars from a wealthy collector who hunts her down and enslaves her (I know, I'm pathological. There is definitely a theme in my work), then mentors her to help her develop her art. VERY kinky. LOTS of sharing (he shares her). Ambiguous ending for this pair (hard to call it an "HEA" but they are together), however they get a subplot in The Escape Artist (where their HEA is solidified) and you MEET them in Twisted Fates above where they are already together. So this book chronologically happens before Twisted Fates in the Pleasure House world. (You can start with the dark art world and then go back up to Pleasure House or start at Pleasure House. Either one is an entry point into these worlds.)

Woman who was captured and abused escapes and then spends 6 weeks revenge torturing the wrong man. He turns the tables and enslaves her. There is some sharing in this one. (For those more familiar with my work, this book is like if Comfort Food and Tender Mercies had a baby.)

## **\* THE DARK WEDDING DUET\***

### **1. The Proposal (also available in audio: Narrated by: Sebastian York and Meg Sylvan) (can be read as a standalone)**

This one is a “sinister wedding book” and that's all I can tell you about it. The story is told a bit out of sequence kind of like a Tarantino movie but less jarring.

This one is a short novella that readers seemed to really like. It has a sort of “Dexter” vibe to it. Woman interrupts hit man while he's killing her abusive criminal husband. He can't let her go, but he can't bring himself to kill her, so he decides to keep her instead. Monogamous.

**Big Sky:**

This one is pretty dark, has an open-ending that some people hate because it's not “happy” in a traditional way. There are multiple men. And there is a lactation fetish (yes, that's exactly what you think it is.) This book is a love it or hate it book. I would never suggest anybody read this first. It's more experimental. Read my other stuff first; see if I'm right for you. THEN if you're good with all that, try this one.

### **Submissive Fairy Tales**

(contains novellas: Awakening, The Auction, and The King's Pleasure which were originally published separately in 2011): Awakening is a mermaid sexual awakening fairy tale. Monogamous. The Auction involves a young woman who is auctioned off as part of some barbaric lady-selling tradition, but the man who buys her is one of the monsters (these kind of alien dragon-y things) on the planet. And he has a brother (menage). The King's Pleasure is about a girl who is caught stealing bread in the king's

castle but instead of losing her hand, the king spares her and keeps her for himself. Monogamous-ish.

He keeps them as pets for a while but eventually, being a vampire, loses control. He is unable to resist Juliet. **I also have a PNR series originally written by my previous pen name, Zoe Winters which has been rebranded/co-branded with Kitty Thomas.**

**\* Fated Mates PNR Series \***

These books can technically be read as standalones but you get the most of out them if you read them in order. Each book has it's own HEA and no cliffhangers, but there is a larger overarching story that brings all the characters together. You can also read Incubus Awakened first without any problem but either way you'll want to read the first two books before the others.

*All books in this series were published previously under the name Zoe Winters, and then republished and rebranded and in some cases re-titled in 2021 co-branded with the Kitty Thomas name, the publication dates below, except in Audio, are the new publication dates associated with the current ASINs and ISBNs.*

**1. Blood Lust: (also in audiobook by Zoe Winters, narrated by Chet Williamson)**

The first book in the series and the only one that is 3 novellas, introducing most of the characters in the world. 3 separate HEAs. Features a sorcerer and a werecat, a vampire king and a human, and a werewolf and a human.

## **6. Caged Moon: (originally published as Unleash the Moon by Zoe Winters)**

Several years into the future, the children of other characters in the series get together and get their HEA. Sydney is a human/vampire hybrid who has all the weaknesses of both and as the daughter of the vampire king lives under house arrest for her own protection from her father's enemies. Noah is a werewolf, kidnapped and caged in a facility studying their kind. When Sydney gets turned over to the facility, she's put in close quarters with this very dangerous werewolf. It's a good thing she's his fated mate, or she'd be dog food.
